Composición de las subclases

The list contains only gauge parts and subclass-dependent parts. For a conversion into another subclass or version machine parts may be required as well. Please state the exact classification of the existing or required version on your order.

La liste comprend uniquement des organes de couture et des pièces dépendant des sous-classes. En cas de transformation en une autre sous-classe ou une autre version, il se peut que d'autres pièces de machine soient nécessaires. C'est pourquoi nous vous prions d'indiquer, à la commande, la désignation exacte de la version existante ou souhaitée.

La lista contiene solamente órganos de costura y piezas dependientes de la subclase. En el caso de transformación en otra subclase o en otro tipo, es posible que sean necesarias piezas de la máquina. Al hacer los pedidos, indíquese la denominación exacta del tipo existente o del deseado.
